FINALISATION OF THE STRATEGIC REVIEW OF STRUCTURED PRODUCTS

Maintain a global leadership position in Equity structured products, recognised by our clients, and reduce the associated risk profile; improving the profitability of Global Markets through a reduction in costs of around EUR 450 million by 2022-2023

Frédéric Oudéa, the Group's Chief Executive Officer, commented:
"During the first half of 2020, Societe Generale successfully adapted to the consequences of the health crisis and was therefore able to effectively support its customers and employees, thereby strengthening its position as a trusted partner. While April and May were heavily impacted by the reduction in activity of numerous economies around the world, the rebound in activities from mid-May is very encouraging. Drawing on a very solid capital base and a loan portfolio confirming its intrinsic quality, the Group will continue to adapt its activities to the new post-COVID crisis environment, extending in particular the efforts to reduce costs. The Group is already working on new initiatives to build its next strategic stage (2021-2023) focused around three priority objectives, customer centricity, corporate social responsibility and operational efficiency based on digital technologies."

Societe Generale's Board of Directors, which met on July 31st, 2020 under the chairmanship of Lorenzo Bini Smaghi, examined the Societe Generale Group's results for Q2 and H1 2020.

The various restatements enabling the transition from underlying data to published data are presented in the methodology notes (section 10.5).

Net banking income

Q2 2020 was heavily impacted by the Covid-19 global health crisis and its economic consequences. As a result, the Group's net banking income was down -15.7% vs. Q2 19. It was down -16.1% in H1 20 vs. H1 19.

Marked by the lockdown in April and May and the recovery in activity from mid-May, French Retail Banking's net banking income (excluding PEL/CEL provision) was down -13.5% vs. Q2 19 (-10.8% excluding adjustment for tax related to commissions of EUR +61 million in Q2 19) and -7.5% vs. H1 19.

International Retail Banking & Financial Services saw revenues fall by -10.8%* vs. Q2 19 and -4.7%* vs. H1 19. International Retail Banking revenues were 8.9%* lower in Q2 20, reflecting a significant decline in activity in April and May and a rebound in June. Insurance revenues were down -7.9% (-7.1%*) vs. Q2 19 given the unfavourable conditions in the financial markets, while Financial Services to Corporates' revenues were down -20.9% (-17.7%*) vs. Q2 19.

Global Banking & Investor Solutions' net banking income fell by -17.0% in Q2 and by -22.2% in H1 in an exceptional market environment that impacted Global Markets' revenues.

The net cost of risk in respect of loans classified in Stage 1 (performing) and Stage 2 (underperforming) amounted to EUR 653 million including EUR 490 million for the impact related to the review of macro-economic scenarios on the estimate of credit losses.

(1) Adjusted for the linearisation of IFRIC 21 and PEL/CEL provision

After the substantial impact of the lockdown on activity in April and May, French Retail Banking's commercial performance improved from mid-May.

Customers substantially reduced their activity during April and May: accordingly, the level of bank card transactions and corporate credit transfers during this period was well below the average level observed in Q2 2019. Loan production was focused in particular on State Guaranteed Loans (PGE), with a slowdown in production on other categories. Customer activity gradually picked up from mid-May, which resulted in the level of bank card transactions and corporate credit transfers in June close to the monthly average levels in Q2 19.

The networks continued to develop their digital offer in Q2. Societe Generale expanded its offering for Professional and VSE customers, with the acquisition of Shine, the neobank for entrepreneurs. It also launched the third generation of its digital application.

Boursorama consolidated its position as the leading online bank in France, with around 2.37 million clients at end-June 2020 and provided further evidence of the agility of its online banking model with a comprehensive offering. In a crisis environment, the commercial momentum remained robust. Boursorama's contribution to Group net income was positive in Q2, driven by a decline in acquisition costs and a record activity in stock market activity.

Net inflow for wealthy clients remained robust at EUR 1.1 billion in Q2 (EUR 1.6 billion in H1), taking assets under management to EUR 67.3 billion (including Crédit du Nord) at end-June 2020.
Life insurance outstandings totalled EUR 93 billion, with the unit-linked share accounting for 26% of outstandings.
The networks continued to develop their insurance business, with a penetration rate of 21.6% on Personal Protection and 9.8% on Property/Casualty insurance.

Average investment loan outstandings (including leases), largely bolstered by State Guaranteed Loans, rose 16.7% vs. Q2 19 to EUR 81.2 billion (+8.5% excluding State Guaranteed Loans).
Average outstanding loans to individuals were up 7.4% at EUR 122.3 billion: after a sharp decline in consumer and housing loan production in April and May, production was strong from mid-May.
As a result, average loan outstandings climbed 11.2% (+8.3% excluding PGE) vs. Q2 19 to EUR 216.0 billion.

Average outstanding balance sheet deposits[1] were 11.3% higher than in Q2 19 at EUR 228.7 billion, still driven by sight deposits (+18.3% vs. Q2 19)[2].
As a result, the average loan/deposit ratio stood at 94% in Q2 20 (stable vs. Q2 19).

In this exceptional period, French Retail Banking is fully supporting the economy, accompanying individual, corporate and professional customers. The Group was extremely reactive in setting up the State Guaranteed Loan (PGE). As of July 24th, around 86,100 applications had been received for a total amount of EUR 19 billion at Group level.

Net banking income excluding PEL/CEL

Q2 20: revenues (excluding PEL/CEL) totalled EUR 1,749 million, heavily impacted by the effects of the lockdown on customer activity (-13.5% vs. Q2 19; -10.8% excluding adjustment for tax related to commissions of EUR +61 million in Q2 19).
Net interest income (excluding PEL/CEL) was 6.0% lower than in Q2 19 with, in particular, a significant increase in deposits adversely affecting the margin in a low interest rate environment.
Commissions were 14% lower than in Q2 19 (-7.6% excluding adjustment tax related to commissions in Q2 19), driven by the sharp fall in service commissions (-11.6% excluding adjustment for tax related to commissions in Q2 19) against the backdrop of the lockdown, despite the increase in financial commissions (+8.1% vs. Q2 19).
"Other revenues" were lower in Q2 (-71% vs. Q2 19) with, in particular, the impact of the non-payment of Crédit Logement dividends.

H1 20: after a dynamic first few months, revenues were impacted by the effects of Covid-19 and the lockdown measures: revenues (excluding PEL/CEL) totalled EUR 3,654 million, down -7.5% vs. H1 19 and -6.0% excluding adjustment for tax related to commissions of EUR +61 million in H1 19.
Net interest income (excluding PEL/CEL) was 2.4% lower than in H1 19. Commissions were down -8.4% vs. H1 19 (-5.0% excluding adjustment for tax related to commissions in H1 19), with the sharp fall in service commissions against the backdrop of the lockdown more than offsetting the strong increase in financial commissions.

Operating expenses

Q2 20: operating expenses were substantially lower at EUR 1,233 million (-8.5% vs. Q2 19), illustrating the Group's work to reduce costs despite the increase in regulatory costs. The cost to income ratio (after linearisation of the IFRIC 21 charge and restated for the PEL/CEL provision) stood at 71.9%.

H1 20: operating expenses were lower at EUR 2,683 million (-5.3% vs. H1 19). The cost to income ratio (after linearisation of the IFRIC 21 charge and restated for the PEL/CEL provision) stood at 71.6%.

Cost of risk

Q2 20: the commercial cost of risk amounted to EUR 442 million or 85 basis points, substantially higher than in Q2 19 (27bp) and Q1 20 (49bp). It includes EUR 266 million of S1/S2 (performing/underperforming loans) provisioning and EUR 176 million of S3 (non-performing loans) provisioning. The inclusion of new macro-economic scenarios in accordance with the application of IFRS 9 contributed EUR 179 million to S1/S2 provisioning.

---

(1) *Including BMTN (negotiable medium-term notes)*
(2) *Including currency deposits*

H1 20: the commercial cost of risk amounted to EUR 691 million or 68 basis points, substantially higher than in H1 19 (23bp).

Net profits or losses from other assets

Q2 20: “Net profits or losses from other assets” amounted to EUR 5 million.

H1 20: “Net profits or losses from other assets” amounted to EUR 136 million including a capital gain of EUR 130 million relating to the Group's property disposal programme carried out in Q1 2020.

Contribution to Group net income

Q2 20: the contribution to Group net income totalled EUR 60 million (-83.1% vs. Q2 19). RONE (after linearisation of the IFRIC 21 charge and restated for the PEL/CEL provision) stood at 1.4% in Q2 20 (vs. 12.6% in Q2 19).

H1 20: the contribution to Group net income totalled EUR 279 million (-52.7% vs. H1 19). RONE (after linearisation of the IFRIC 21 charge and restated for the PEL/CEL provision) stood at 6.0% in H1 20 (vs. 11.5% in H1 19).

Finalisation of the strategic review of structured products in Global Markets

The Group has finalised the strategic review carried out in Global Markets on structured products and has set three priorities:

- Maintaining its global leadership role in equity structured products and remaining a major player in investment solutions
- Reducing the risk profile on equity and credit structured products in order to decrease the sensitivity of Global Markets' revenues to market dislocations. This refocusing will have an impact on revenues of between EUR -200 million and EUR -250 million
- Improving the profitability of Global Markets by reducing the breakeven point through a net cost reduction of around EUR -450 million by 2022-2023.

Net banking income

Q2 20: Global Banking & Investor Solutions' revenues were down -17.0% at EUR 1,880 million.
H1 20: when adjusted for the impact of restructuring (activities in the process of being closed or scaled back) completed last year, the revaluation of SIX securities (EUR +66 million in H1) and the disposal of Private Banking in Belgium, net banking income was down -18.7% vs. H1 19 (and -22.2% on a reported basis).

In Global Markets & Investor Services, net income banking totalled EUR 991 million, down -28.1% vs Q2 19 adjusted for restructuring.
In H1 20, when adjusted for restructuring and the revaluation of SIX securities (EUR +34 million in Q1 19), revenues were down -30.8% vs. H1 19.

Fixed Income & Currencies enjoyed an very good Q2, in all regions. When restated for the impact of restructuring, revenues amounted to EUR 700 million and were substantially higher (+38.1%) than in Q2 19. They were driven by the healthy commercial momentum, particularly in financing, and by the exceptional number of primary issues. Flow activities (rates and credit) and emerging market activities continued to benefit from favourable market conditions. The Americas region performed particularly well in Q2 20.
In H1 20, revenues restated for restructuring were up +43.6% at EUR 1,309 million.

Equity net banking income declined by -79.5% vs. Q2 19. In April and May, structured product activities continued to be impacted by the cancellation of dividend payments (loss of EUR 200 million), a still strong correlation and strict production constraints. These activities saw a gradual recovery from mid-May.
Listed product revenues were significantly higher than in Q2 19, driven by flow investment solutions (notably due to EMC activities integration). This increase, combined with the strong performance of

equity flow activities, was not enough to offset the losses recorded on structured products at the beginning of the quarter.

Securities Services' assets under custody amounted to EUR 4,238 billion at end-June 2020, up +3.1% vs. end-March 2020. Over the same period, assets under administration were up +3.5% at EUR 599 billion. Securities Services' revenues totalled EUR 149 million in Q2 20, in line with Q1 20. They were down -16.8% vs. a strong Q2 19.

Financing & Advisory revenues totalled EUR 657 million in Q2 20, up +2.0% vs. Q2 19. They amounted to EUR 1,286 million in H1 20, slightly lower (-1.1%) than in H1 19.
Investment banking enjoyed an excellent quarter, driven by a record number of issues in the debt capital markets and buoyant acquisition financing activity. The Group therefore strengthens its leadership position in the European market.
Financing activities proved resilient in this environment impacted by the crisis. New business remained stable.
After a challenging Q1, the Asset Backed Products platform delivered a good performance in Q2, against the backdrop of a stabilisation in the market environment.
Global Transaction and Payment Services proved resilient in light of the crisis and a significant decline in volumes.

Asset and Wealth Management's net banking income totalled EUR 232 million in Q2 20, slightly higher (+0.4%) than in Q2 19.
In H1 20, when adjusted in Q1 19 for the revaluation of SIX securities (EUR +32 million) and for the disposal of Private Banking in Belgium, net banking income was 2.9% higher.

Private Banking posted a robust performance in Q2 20, driven by good transactional revenues in France and positive net inflow. Net banking income amounted to EUR 187 million in Q2 20, up +6.9% vs. Q2 19 (and +6.3% vs. Q1 20). Assets under management increased by +2.4% vs. March 2020, to EUR 114 billion. Private Banking posted net inflow of EUR 1.5 billion in H1 20, driven by France. Net banking income amounted to EUR 363 million in H1 20, up +5.5% vs. H1 19, when adjusted for the disposal of Private Banking in Belgium and the revaluation of SIX securities.

Lyxor posted a performance down -21.6% in Q2 20, impacted by the challenging market conditions. Lyxor's assets under management totalled EUR 132 billion at end-June 2020, an increase of +5.1% vs. March 2020. Lyxor is the first provider to launch an ETF ecosystem to tackle climate change, which further strengthens its leadership status in the Green Bonds segment.
Revenues were 5.3% lower in H1 20 than in H1 19, impacted by market effects on equity indices.

Operating expenses

Q2 20: when restated for the increase in the resolution fund (EUR +38 million) and the restructuring provision, recorded in Q2 19 for EUR 227 million, operating expenses were down -9.2% vs. Q2 19.
H1 20: restated operating expenses were down -6.8%.

Net cost of risk

Q2 20: the commercial cost of risk amounted to 95 basis points (or EUR 419 million), vs. 87 basis points in Q1 20 and 8 basis points in Q2 19. The Q2 cost of risk includes EUR 240 million related to Stages 1 and 2 (with EUR 176 million related to the review of macro-economic scenarios on the estimate of credit losses) and EUR 178 million related to Stage 3.

H1 20: the cost of risk amounted to 91 basis points (EUR 761 million).

7. CONCLUSION

During H1 20, Societe Generale demonstrated its ability to absorb the impacts of the crisis due to the quality of its asset portfolio and the robustness of its balance sheet with, in particular, a capital level of 12.5%, or 350 basis points above the regulatory requirement.

Drawing on this solid base, the Group will continue to adapt its activities to the new post-COVID crisis environment, particularly in structured products, as well as its efforts to reduce costs in 2020 and in the medium term, through structural initiatives.

Accordingly, in 2020 the Group anticipates:

- underlying costs of around EUR 16.5 billion, substantially lower than in 2019 (EUR 17.4 billion)
- a cost of risk at the bottom of the range of between 70 to 100 basis points
- a CET1 ratio at the top of the range of between 11.5% and 12.0% at end-2020

Finally, Societe Generale is already preparing its 2021-2023 strategic plan based around its three priority objectives:

- further improving its capacity to place the customer at the centre of its activities
- ramping up our commitment in responsible finance to strengthen its leadership position
- increasing operational efficiency with the support of digital technologies

10. APPENDIX 2: METHODOLOGY

1 – The financial information presented in respect of Q2 and H1 2020 was examined by the Board of Directors on July 31st, 2020 and has been prepared in accordance with IFRS as adopted in the European Union and applicable at that date. The limited review procedures carried out by the Statutory Auditors are in progress on the condensed interim consolidated financial statements as at June 30th, 2020.

2 – Net banking income

The pillars' net banking income is defined on page 43 of Societe Generale's 2020 Universal Registration Document. The terms "Revenues" or "Net Banking Income" are used interchangeably. They provide a normalised measure of each pillar's net banking income taking into account the normative capital mobilised for its activity.

3 – Operating expenses

Operating expenses correspond to the "Operating Expenses" as presented in note 8.1 to the Group's consolidated financial statements as at December 31st, 2019 (pages 423 et seq. of Societe Generale's 2020 Universal Registration Document). The term "costs" is also used to refer to Operating Expenses.

The Cost/Income Ratio is defined on page 43 of Societe Generale's 2020 Universal Registration Document.

4 - IFRIC 21 adjustment

The IFRIC 21 adjustment corrects the result of the charges recognised in the accounts in their entirety when they are due (generating event) so as to recognise only the portion relating to the current quarter, i.e. a quarter of the total. It consists in smoothing the charge recognised accordingly over the financial year in order to provide a more economic idea of the costs actually attributable to the activity over the period analysed.

5 – Exceptional items – Transition from accounting data to underlying data

It may be necessary for the Group to present underlying indicators in order to facilitate the understanding of its actual performance. The transition from published data to underlying data is obtained by restating published data for exceptional items and the IFRIC 21 adjustment.

Moreover, the Group restates the revenues and earnings of the French Retail Banking pillar for PEL/CEL provision allocations or write-backs. This adjustment makes it easier to identify the revenues and earnings relating to the pillar's activity, by excluding the volatile component related to commitments specific to regulated savings.

The reconciliation enabling the transition from published accounting data to underlying data is set out in the table below:

6 - Cost of risk in basis points, coverage ratio for doubtful outstandings

The cost of risk or commercial cost of risk is defined on pages 45 and 574 of Societe Generale's 2020 Universal Registration Document. This indicator makes it possible to assess the level of risk of each of the pillars as a percentage of balance sheet loan commitments, including operating leases.

French Retail Banking	Net Cost Of Risk	442	129	691	223

	Cost of Risk in bp	**97**	**25**	**81**	**23**

The **gross coverage ratio for doubtful outstandings** is calculated as the ratio of provisions recognised in respect of the credit risk to gross outstandings identified as in default within the meaning of the regulations, without taking account of any guarantees provided. This coverage ratio measures the maximum residual risk associated with outstandings in default ("doubtful").

7 - ROE, ROTE, RONE

The notions of ROE (Return on Equity) and ROTE (Return on Tangible Equity), as well as their calculation methodology, are specified on page 45 and 46 of Societe Generale's 2020 Universal Registration Document. This measure makes it possible to assess Societe Generale's return on equity and return on tangible equity.
RONE (Return on Normative Equity) determines the return on average normative equity allocated to the Group's businesses, according to the principles presented on page 46 of Societe Generale's 2020 Universal Registration Document.
Group net income used for the ratio numerator is book Group net income adjusted for "interest net of tax payable on deeply subordinated notes and undated subordinated notes, interest paid to holders of deeply subordinated notes and undated subordinated notes, issue premium amortisations" and "unrealised gains/losses booked under shareholders' equity, excluding conversion reserves" (see methodology note No. 9). For ROTE, income is also restated for goodwill impairment.

Details of the corrections made to book equity in order to calculate ROE and ROTE for the period are given in the table below:
